Welcome from the President

Welcome to another exciting year with NWOASBO! Hopefully you have had some time this summer to relax, refresh and rejuvenate and are ready for another exciting year as a School Business Official.

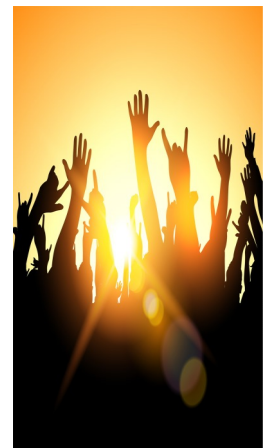

OASBO's Strategic Goal 3 is to develop a strategy to communicate the value of OASBO membership and the SBO professional role. The results of a survey of board presidents indicated that communication skills are now among the top skills expected of SBO's! This is a big change in the job from the days of being the "book keeper" and now being the Chief Financial Officer of the district. Leadership and teamwork skills are expectations of today's SBOs. In striving to meet this goal, it is the goal of OASBO and NWOASBO to provide opportunities for professional development in leadership and communication. Simply by attending professional development sessions, we are expanding our communication and leadership skills.

NWOASBO can help with this development and furtherance of the role of the SBO. NWOASBO offers professional development and events that allow our members to connect and collaborate with people from other school districts and with vendors providing services to our districts. Opportunities are offered to learn how to best communicate with board members, staff and members of the public as the chief financial officer for your district.

As we move forward into another busy school year, I encourage you to renew your membership in OASBO and NWOASBO or become a new member. Participation is your first step to becoming an effective SBO!

Have a great year and I hope to see you at the many NWOASBO and OASBO events throughout the year!

Carla Rice
